

## FURNITURE

Innovative and original designs in furniture production; we bring our latest technology production line and offer our products to the users of the whole world. Kindergarten furniture, school furniture and all other furniture according to the needs of educational institutions are produced according to user demands.

First class MDF Lam, PLYWOOD, double LACQUERED Lam with water based lacquers. It is designed and produced with priority on child health and development.

## COMPLEMENTARY FURNITURE

In addition to basic furniture groups; complementary furniture such as tables, chairs, and bookcases are also produced. We are able to respond more easily to the demands of the user's thanks to the variety of products in chairs and tables. All chairs and tables are produced from natural wood, painted wood, metal legs or plastic legs.

We closely follow the development of children in chairs and tables and produce products designed according to ergonomics and correct seating styles. We have the right product for all age groups in our portfolio with our sizes varying for every age.

## WOODEN TOYS

Our wooden toys are designed by examining the physical and mental development of children, age groups and psychological behavior norms in detail. Each product has its own functions for motor activities and mind development.

Due to the fact that some of our products are multi-functional, we aim to maximize the efficiency of our products by combining several different functions into a single toy. All the materials used are in compliance with European Standards and do not contain any chemicals harmful to the health of our children.

## PLAYING GROUND GROUPS

We produce playgrounds suitable for the infrastructure of the spaces with the use of both wooden and iron materials. With our playgrounds suitable for age groups such as 0-3 years, 3-6 years, +6 years, we are able to design and manufacture for our children in all age groups. All our products that we produce using first class natural wood meet with our children both with nature friendly and endless commitment to sustainability principle.

## About Us,

In 2005, we established our first brand 'İnci Eğitim Araçları' and started first step in the school furniture and wooden toys sector. In 2014, we added our Edu Dizayn brand to the infrastructure of our company with our experience and references accumulated for 9 years. As of today, with 15 years of experience; we continue to design, research, develop and produce with all our excitement.

We are adapting to industrial changes in our changing and developing world in line with our R & D studies and targets. Believing that we have taken great distances in a short time, we continue to take professional steps with our expert staff and high technological factory.

Today; we strive to solve the needs of educational institutions with our innovations.

With our 10500m<sup>2</sup> 'open, 5500m<sup>2</sup> closed computer-integrated manufacturing, we are trying to provide the best service to our valued customers without any production capacity problem.
